Guardian Angels for Soldier's Pet specifically formed to support deploying heros, veterans, and their pets when there is no other option except the uncertain future of shelter placement. The tragic dilemma of literally thousands of pets being abandoned due to hardship circumstances is a reality that needs a solution and this is the mission of GASP.

We have a very special foster program across the nation. How do we do it? Through selfless volunteers who open their hearts and homes in support of our heros with hardships so when you come home, your "best friend" will be waiting for you. Our Guardian Angels are carefully selected and we assess each foster need personally, inspect, certify and monitor potential foster families and match pets across the nation, providing financial help in any area of your pet's transportation, food or maintenance if necessary.

*Thank you for your service and sacrifices to our country and our freedoms*  
*We would be honored to have your pet waiting for you when you return home.*

Guardian Angels for Soldier's Pet is not a rescue group, nor a shelter; we are unique in that we recruit, interview, and monitor caring, loving, and safe homes open to your pet with a written agreement to return your pet to you upon your return. We work with military service members and veterans who simply have no other option for their pet except a shelter. There is no monetary compensation to our foster parents; it is an unselfish act of support to those who need our program and we are across the nation.

**Note:** Our ability to assist is dependent upon our available foster homes and other resources. Each submission is addressed on an individual case basis.
